## ALMANNAVARNADEILD

Applies to: Media, Department of Civil Protection and Emergency Management, administration and Chief Epidemiologist

### STATUS REPORT

Date: 11.02.2020

Time: 12:00

Location: Coordination center /Directorate of Health /Chief Epidemiologist

#### Uncertainty phase due to the novel coronavirus (2019-nCoV)

##### Event description

At the end of December 2019, reports of severe lung infections came from the city of Wuhan, China. Subsequently, it was confirmed that an unknown coronary virus variant was the cause, now called 2019-nCoV. It is now confirmed that the virus is transmitted between humans and can cause serious illness

We will continue to work on uncertainty phase according to the Icelandic Pandemic for Influenza Preparedness Plan. If needed it is possible to activate the preparedness plan for ports and ships, and the plan for international airports alongside the pandemic plan.

No case of the 2019-nCoV has been reported in Iceland

- Ministry of Foreign Affairs

## Status

### Coronavirus – spread abroad

Today, on 10<sup>th</sup> of February 2020 cases of the 2019-nCoV has been confirmed in 43,118 individuals and about 1,080 are deceased (2.3%). Two deaths outside of China have been reported, in Hong Kong and the Philippines. According to [John Hopkins](#) 4,284 individuals have recovered from the illness.

[See worldwide situation update on ECDC's website.](#)

The cases reported are from China (42,654), Hong Kong (42), Macao (10), Singapore (45), Thailand (32), South-Korea (28), Japan (26), Taiwan (18), Malaysia (18), Vietnam (15), United Arab Emirates (8), India (3), Philippines (3), Cambodia (1), Nepal (1), Sri Lanka(1), Australia (15), USA (13), Canada (7), Germany (14), France (11), UK (8), Italy (3), Russia (2), Spain (2), Belgium (1), Finland (1) and Sweden (1). Cruise ship in Japan (135).

The vast majority of cases originate in China.

A total of 37 individuals have been diagnosed in Europe, whereof 12 have been infected within Germany, 6 in France and 1 in the UK.

### Iceland

- The status is unchanged. No case has been reported in Iceland.
- Today, samples from 18 individuals have been analyzed with regards to the 2019-nCoV, all of them turned out to be negative.
- During a meeting this morning the status in Europe was discussed. Infections outside of China and within Europe are still few, but a total of 41 cases have been confirmed in Europe, all mild infections. In Europe extensive measures to curb the spread of the disease from infected individuals travelling from China to Europe have been successful.
- According to the risk assessment of European Centre for Disease Control (ECDC) the 2019-nCoV is not expected to be a major public health problem for nations that take action, such as using quarantine and isolation to prevent transmission, but can cause health problems for infected individuals. See ECDC's [risk assessment](#).
- The Ministry of Foreign Affairs' civil service is in daily consultation with the Nordic civil services.
- We will continue working at uncertainty phase, according to the Icelandic Pandemic for Influenza Preparedness Plan.
- Next coordination meeting will be held on Thursday, 13<sup>th</sup> of February.

### Department of Civil Protection and Emergency Management

Coordinates responses in collaboration with the Directorate of Health / the Chief Epidemiologist.

The emergency response is unchanged: we continue working at uncertainty phase, according to the Icelandic Pandemic for Influenza Preparedness Plan.

### The Directorate of Health/ The Chief Epidemiologist

Coordination of actions and guidelines for the public, healthcare professionals, tourism and businesses. Instructions are updated when necessary. Information are updated and new guidelines revisited when needed.

See <https://www.landlaeknir.is/koronaveira/english/>

### Landspítali – The National University Hospital of Iceland

Attends daily coordination meetings

### Primary Health Care of the Capital Area

Regional and district epidemiologist of the capital area attends daily consultation meetings.

### International airports, Keflavik, Akureyri, Egilsstaðir and Reykjavik and designated ports

Information is disseminated daily by ISAVIA to airport employees. The Coast Guard sends information to foreign arriving ships. The Customs and the Coast Guard review the crew and passenger lists, which contains health information. Text messages to all arriving passengers at Keflavik airport and passengers arriving with M/S Norröna to Seydisfjörður .

## ALMANNAVARNADEILD

### The tourism industry

The Icelandic Tourist Board is ready to disseminate information through its databases to the tourism industry.

### Healthcare facilities and the police in regional Iceland

Coordination meeting with the Chief Epidemiologist and district Chiefs of Police was held last Friday. Next meeting is planned at the end of this week.

### Laeknavaktin – doctors on call service

Telephone service 1700 has started. For foreign phone numbers +354 544-4113.

Shares information and ensures 24/7 response. Consults with the Primary Health Care of the Capital Area to ensure 24/7 on call doctor.

### Red Cross

Assists with assessment of isolation facilities for tourists in each region of Iceland, in coordination with Landspítali. The Red Cross provides psychosocial support to families in quarantine. A consultation group has been activated for crisis counselling.

### ICE-SAR

Disseminates information to tourists at [www.safetravel.is](http://www.safetravel.is) Works on registering new members into the SAR-EYE.

### The Ministry of Foreign Affairs

Have posted on social media (see [Facebook](#)) and on their website where Icelanders are advised to register with the civil service at [help@mfa.is](mailto:help@mfa.is). In this way, the embassy will increase the number of Icelanders that they can easily reach if needed.

### Icelandic Medicines Agency

Is in contact with pharmaceutical companies and monitors supplies of essential medicines.
